

The Collaborative Response Team

June 19, 2020

Sat Nam Dear Members of our 3HO, Sikh Dharma, and KRI Community,

An Olive Branch is continuing the intensive work of doing a thorough and balanced investigation. Almost 300 people have voluntarily participated in the investigation, including reporters of harm and their supporters as well as reporters supporting Yogi Bhajan and witnesses refuting allegations. As the number of individuals electing to participate in the investigation grew dramatically in the final weeks, An Olive Branch has advised that its report completion date is estimated for late July.

The investigation by An Olive Branch has been a challenging time for our communities, but it has been a necessary step as we seek truth and share truth with all. Regardless of an Olive Branch's findings, we are confident that the strong bond of shared values within our communities and our collective commitment to live for one another will guide us to a successful future.
